

Training - International Accreditation (20 Hours)

As India positions itself as a global hub for international mediation and mediation training, it is crucial for seasoned mediators to continually refine and elevate their expertise. This specialized training program is designed to meet these needs, equipping mediators with advanced skills and in-depth knowledge that align with global best practices. By preparing mediators for international accreditation, the program enhances their credibility and positions them to handle complex, cross-border disputes with confidence and professionalism. Achieving these international standards broadens mediators' capabilities and impact, supporting India's emergence as a premier center for world-class mediation and training excellence. Through this commitment to ongoing professional development, mediators are empowered to contribute to and shape the evolving global landscape of conflict resolution.
